– How to get people involved for our event?

attitudes inner and approaches
[...] – as well as
outer ways of structuring, and organizing give form to our educational settings, that either support or becomes contraproductive to a new culture that we want to promote, creating and enterprising orientation. And we can change these underlying structures, rather than fighting against them.'

It has been the first steering committee event to be using <u>Eventbrite</u>. Give us your <u>opinion</u> about using it for the Conference in Sweden in April 2012.

- Why should I take part to the event?

We are gathering examples on creativity and enterprising skills of such teachers around Europe, you would like to meet other teachers who work with a positive attitude?

We are sure you will have many an interesting cases to tell us, we would love to hear from your experience, take part on the educational event and <u>send</u> your ideas, suggestions!
